BOOK SYNOPSIS

Calista Cameron follows the truth wherever it takes her. But nothing can prepare her for what she finds... Cal worries her sharp instincts are nothing more than dumb luck. The story shes chased for months seems to be going nowhere. Her insistence that these strange disappearances are connected makes her look more like a conspiracy theorist than a respected reporter. But she cant stop digging. Now Cals out of a job, feeling more lost than ever, until an agent from a secret branch of the U.S. space program recruits her for the Stellix Mission. She and a team of operatives venture into space and secure evidence of intelligent alien life. Despite her best friends warnings, Cal soon finds herself smitten with the mysterious Sam Decker. But when the operatives end up on the wrong planet, Sam makes a chilling confession. For Cal, nothing feels worse than being proven right... Stellix is a page-turning standalone sci-fi thriller. If you enjoy suspense, fast-paced action and compelling characters that will stay with you long after youre done reading, then youll fall in love with this brand new adventure by L. Danvers.
